FCEFYN - UNC

Completed up to and including the third year.

2015 - 2020

## EXPERIENCE

### FULLSTACK DEVELOPER

Vates

2022 - Present

As a Full Stack Developer at Vates, I have played a key role in the development and maintenance of various applications, working on the frontend with technologies such as React JS, Next JS, and Redux, and on the backend with Python, FastAPI, and SQLAlchemy, integrating SQLServer. I implemented Material-UI for a consistent user experience. I collaborated closely with the team, met deadlines, and contributed to continuous improvements, becoming a versatile developer capable of tackling complex challenges in application development.
